DISCLAIMER

The colour in the company profiles on the outside of the map correspond to properties on the map that the companies have an interest in. If a property has striped colours, then both companies represented by the colours have an interest of some type in that property. Any information that is used from this map should be verified with the participating companies. Properties are considered exploration projects if they have an NI 43-101 or equivalent compliant resource or significant drilling has been undertaken.

This map has been produced from the most current information available to The Northern Miner.
